Welcome to Rolie Polie Olie The Search for Spot

Gee Whirlickers! Olie's dog Spot has made a mess of the house and you and Olie have to straighten up all the rooms and try to find Spot. And it has to be done before Mom and Dad come back from bowling! You need to check each room in the house to find what Spot knocked over. After all the rooms are straightened up, go to the Bathroom and help Pappy give Spot a bath. Okey Dokey?

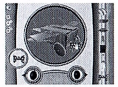
Once a room is straightened up, Olie will invite you to play a game with him. You can catch crayons, build make-believe settings with furniture, play music with the kitchen buddies, and dive underwater to rescue Pappy's teeth.

Rolie Polie Olie and the Whole Child Curriculum

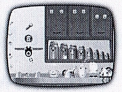
Rolie Polie Olie is part of the preschool curriculum at Playhouse Disney where preschool programming is based on the "Whole Child Curriculum." Intelligence and learning consist of more than verbal or quantitative skills like memorizing ABCs or learning to count. The Whole Child Curriculum focuses on social and moral development.

- Social/Emotional Development: In their interactions, the characters show how family members relate to each other in all the daily tasks of life and how they learn to cooperate, share, and help each other.
- Moral and Ethical Development: Positive messages about what it means to be a member of a family or community are embedded in the stories.

Playhouse Disney's Rolie Polie Olie The Search for Spot applies these principles of the "Whole Child Curriculum" in an interactive medium. Children are invited and encouraged to explore the Polie house. As they do, their natural inquisitiveness is rewarded with entertaining "clickables." As Olie moves through the house social lessons like helping others are reinforced in a fun setting.



Telly Builder focuses on the skills of spatial awareness and matching.



Canister Can-Can focuses on music and rhythm.

Crayon Crisscross focuses on hand-eye coordination, color matching and color mixing.

Scuba Splash focuses on hand-eye coordination and matching.
